

# GRID PLAN FORM

Deadline 9 September 2024

Sent to: OPERATION DEPARTMENT

Company Title : .....  
Received From : .....  
Cell Phone : .....  
E - Mail : .....

DATE

STAMP - SIGN

Note: Stamp-Signature should belong only to company that installs the stand.

## No Stand-Special Design Stand Note:

With the help of the sample drawings below, a stand area should be created on the empty table and the electrical outlet point should be specified.

In case the electricity outlet is not specified, the requested technical services are left to the place that ULUSAL FUARCILIK ORG. TİC. LTD. ŞTİ. deems appropriate.

Change requests to be made in the Exhibition area will not be processed and the necessary work will be done by the company.

The distribution of technical infrastructure elements within the stand is then carried out by the exhibitor.

## Standard Stand Note:

Exhibitors taking part in the Exhibition with a Standard Stand should mark their warehouse space, panel and door with lock requests in the Extra Stand Material form and specify their locations by creating a stand area on the empty table.

Sample Drawing – Corner Stand

Sample Drawing – Divided Square

Sample Drawing – Adjacent Stands

Stand lines and letters must be legible on the plan.

- Each square is 1²m².

**Important:** Since electricity distribution in the booth will be carried out by the exhibitor, only 1 electricity (E) outlet point should be marked on the plan.

# INFORMATION OF COMPANY INSTALLING THE STAND

Deadline 9 September 2024

Sent to: OPERATION DEPARTMENT

Company Title : ..... DATE STAMP - SIGN  
Received From : .....  
Cell Phone : .....  
E - Mail : .....

Note: Stamp-Signature should belong only to company that installs the stand.

Without Stand - Participants who attend the exhibition with a Special Design Stand and have their stand made by a third party or company are required to fill out the form. In order to provide technical infrastructure services in a healthy manner during the stand assembly process in the Exhibition area, the contact information of the Stand Designer should be written in the section below:

# INFORMATION OF COMPANY INSTALLING THE STAND

\*Company Title : .....  
Company Address : .....  
Company Phone : .....  
\*Authority Full Name : .....  
Position : .....  
\*Cell Phone : .....  
\*E - Mail : .....

\* Are the mandatory fields.

**Critical Reminder:** In the event that our exhibitors request in writing that the stand rubbles be disposed of by ULUSAL FUARCILIK ORG. TİC. LTD. ŞTİ., they are invoiced to the exhibitor as the rubble disposal fee over the current price over the unit price of the pickup truck

It is recommended that you inquire in detail about the reference and experience information of the company you have made an agreement with, so that you do not experience any grievances during the stand setup stage (not establishing the stand, unfinished works, etc.).

After the stand deinstall process, in order to prevent debris from being left in the stand area and to avoid such penal situations, it is recommended that you include clauses regarding the rubble disposal obligation in your contract with your subcontractor company that will design and install the stand.

At the end of the exhibition, it is the responsibility of the exhibitor company to transport the stand materials and wastes from the exhibition area after the stand is disassembled. In case the stand wastes are left in the exhibition area, the transportation fee is invoiced to the participant as current price (VAT Included) over the stand area size (m2) determined in the contract.

At the end of the exhibition, it is the responsibility of the exhibitor company<sup>?</sup> to transport the stand materials and wastes from the exhibition area after the stand is disassembled. In case the stand wastes are left in the exhibition area, the transportation fee is invoiced to the participant as current price (VAT Included) over the stand area size (m2) determined in the contract.
